About Us

Northern Number Plates has been closely aligned with the automotive industry for a number of years supplying number plate equipment and consumables to businesses of all sizes. We produce some of our materials in house and the rest we source from other world leading manufactures. We carefully select the types of number plate printers and media we use and supply based on a wide range of parameters to ensure we deliver market leading number plates and printing systems that deliver the highest quality results. We regularly review all our products and aim to be the first supplier to introduce new equipment to the market. We work directly with the printer manufactures to deliver the latest innovations. All of our number plates and components comply with BSAU145e standards.

Authorised Distributer
PLATEBUILDER
NUMBER PLATE PRINTING SOFTWARE

Legislation

The supply of vehicle number plates, number plate components and manufacturing equipment is regulated by the DVLA. We require all of our prospective customers to be registered with the DVLA as a number plate supplier prior to the opening of a trade account. Once registered with the DVLA there are regulations that must be adhered to.

Number plates supplied by registered outlets must comply with BSAU 145e standards as set out by the British Standards Institution (BSI). In addition number plates must also comply with The Road Vehicles (Display of Registration Marks) Regulations 2001.

[Register as a number plate supplier](#)

Ready Made Number Plates

We are a prominent supplier of ready made number plates to independent garages, multi-site franchises, and PDI centres across the UK. Our offerings adhere to exacting standards of excellence and longevity.

At present, we operate two production lines, each with the capacity to manufacture 2500 number plates daily. Our ordering process has been streamlined for ease and efficiency, with a commitment to ensuring that orders placed before 1 PM are delivered on the subsequent working day.

Number Plate Printing Software

Our cutting-edge software for number plate printing facilitates the creation of legally compliant number plates that adhere to the latest BSAU145e British standards.

- Multiple fonts for dealer name and postcode
- Custom size option
- BSAU offset for printing Hex and Lambo plates
- Showroom plate capability
- Raise and lower dealer name and postcode
- Save plate templates for quick operation
- Print pair option
- Border option with adjustable width and margin
- Flag option for material with pre printed flags
- Duel printer ready

We are an approved distributor of Plate Builder software and undergo regular compliance checks to ensure we meet the required technical and customer support standards.

Signs Designer

A simple and effective tool to create signs of most sizes.

Create professional, high-quality signs in minutes with our unique sign designer tool! Whether you're designing road signs, business signs, custom graphics or showroom plates our easy to use tool gives you complete creative control.

- Intuitive Design Tools – Drag, drop, resize, and edit text/images effortlessly
- Custom Fonts & Colours – Choose from 20+ fonts or upload your own
- Size & Dimension Control – Adjust width and height with precision
- Image Import – Import images, resize and position
- Export & Print – Download as PDF and print to any number plate printer
- Save & Load Designs – Store your designs and edit them anytime
- Online Shop Integration – Buy high quality materials with ease
- Inch to MM Converter – Quick unit conversions for accurate sizing
